

Michael Valencia

Objective

Software Developer looking for a position as a Front end or Full Stack Web Developer. Where I can utilize my skills yet grow my knowledge with experience.

Skills

C#, Java, JavaScript, HTML 5, CSS, SCSS, Node.js, Mongo DB, MySQL, SpringBoot, github, git, Bootstrap, Express, Excellent Verbal and Written Communication, astute observation skills, Time management and organization, ability to follow set rules and protocols.

Educational Competencies

Edge Tech Academy (Student)

C#

- Began learning the fundamentals of the C# computer programming language.
- Introduced to Visual Studio 2017 IDE and GitHub.
- Introduced to the ASP.NET, MVC Architecture used to create Music Store Application.
- Applied extra learning development in the lab after class hours

JavaScript

- Applied C# fundamentals to JavaScript programming language and introduction to Visual Studio Code IDE, Node.js and MongoDB
- Learned about Dependencies and NPM
- Applied extra learning development in the lab after hours.

MySQL

- Learned database design where I created a database for art paintings
- Understanding query analysis using (Select, (*), FROM, WHERE, ORDER BY, GROUP BY)
- Applied extra learning development in the lab after class hours

Java

- Applied Java fundamentals such as Variables, classes, methods, object and loops

Project Phase

HTML 5 & CSS

Web Apps

- Involved in the design, implementation and presentation with j2ee development tools such as: Visual Studio Code, and Web technologies (HTML 5 and CSS)
- Implemented HTML pages displaying images, text with routes to other Web Applications pages.
- Styled the Web App using Sass/CSS properties and media queries

- Initialized Repository to Github to save Web Applications to the Cloud.
- Synchronized Azurewebsites.net to Github Repository to Deploy to Web Application Modern Portfolio to have work viewed

Development of HTML 5 & CSS skills that display my understanding.

Vanilla JavaScript

Web Applications

- Designed implementation and presentation with j2ee development tools such as: Visual Studio Code, GitHub and Web technologies (JavaScript, CSS, HTML 5) and hosting on azurewebsites.net
- Implemented HTML pages displaying images, text and functionality from Vanilla JavaScript
- Styled the Web App using Sass/CSS properties and media queries
- Synchronized Azurewebsites.net to GitHub Repository to deploy to web applications

Development of JavaScript and ES6 skills that display my understanding for React Prerequisites.

Modern Portfolio (HTML 5, CSS, Node.js, Express, JavaScript, JSON)

Web Application

- Did design, implementation and presentation with j2ee development tools such as: Visual Studio Code, GitHub, JavaScript, CSS/SASS, HTML 5) hosted on azurewebsites.net
- Implemented Node Package Manager to install project Dependencies
- Styled the Web App using Sass/CSS properties and media queries
- Sync Azurewebsites.net to GitHub Repository to Deploy Web Application.

The modern portfolio is a Responsive Web Application about me that will fit mobile devices

Work History

Baylor Medical Center at Irving (Ancillary Tech)

Transported patients from patient rooms to and from treatment areas.

Baylor Medical Center at Irving (CNA)

Provide basic care to patients, as well as assist them in daily activities

Education

- Edge Tech Academy, Hurst, TX 9/10/2018 – 04/18/2019
Software Development GPA 3.83
- North Lake College 2008 – 2011
Associates of Science with Honors (Dec 15,2011)
- The Academy of Irving ISD 2004-2008
Obtained an internship at Baylor Medical Center (Irving) in 2007-2008
